

REGISTER WON

IN THE STONE DAMAGE SUIT AT SMITHLAND.

Mr. Stone Was a Former Resident of Crittenden County.

PADUCAH, Ky., April 28.—The jury in the damage suit of Sam Stone against the Register Publishing Company, of Paducah, at Smithland, Ky., this morning brought in a verdict for the defendant, having had the case from yesterday afternoon about 3 o'clock until 11:30 a. m. today. It is understood the jury stood three for giving damages and nine for the newspaper.

The suit against the Register was filed several weeks ago at Smithland through Attorney J. M. Worley, of Paducah, for \$10,000 damages for alleged libel. Stone claimed that a publication following his arrest in Paducah to be taken to Marion, Ky., was libelous.

It was alleged by the defendant that the portion of the publication alleged to have libelled the plaintiff, referred to another person. Attorneys Hendrick & Miller were counsel for the defense.

Terrific Race With Death.
"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death. "As a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at R. F. Haynes' drug store; price 50c.

Lexington, Ky., March 30, 1905.
Editor of Record.

Marion, Ky.

Dear Sir:—

I wired you last night my sympathy upon hearing of your loss and offering you my assistance in helping you to adjust your insurance.

I have had a great deal of experience in this line and I believe I can be of assistance to you, financially I mean, and if you wish to have me come, and if I do not hear from you today by wire, please send me a message tomorrow at Fortsville, Ky., whether you wish to have me come or not, and if you do I will be with you Saturday and Sunday and remain as long as you desire.

Trusting your loss is amply covered by insurance, and that I may hear from you by wire, at my expense, I am, Yours truly,
T. F. BALL,
Representing Barnhart Bros. & Spindler.

Mannville, Ind., April 1.—1905.
Mr. Jas. E. Chittenden.

Marion, Ky.

Dear Sir:—

Send Record to Mannville, I. T., instead of Dallas, Texas. Sorry to hear of your loss by fire. Hope the good people of Marion will rebuild even better buildings than those burned here I visit old Kentucky.

Respectfully,
SUSIE COLE

Mr. J. E. Chittenden.

Dear Sir:—Received your issue of the 14th inst, it being the first copy of the

Record that has reached me since your misfortune by the great fire that destroyed your outfit, March 28. I would like, if you have any left copies of your issues of March 31 and April 7 sent me, as I do not like to miss a copy.

Hoping you will never again have such a fire and wishing you unbounded success, I am.

Yours truly,
C. W. LAMB.

"The Record."

Marion, Ky.

Gentlemen:—We are obliged to you for copy of Record of March 31st: You had an experience which no one can envy you, especially those who have experienced the terrors of a fire. We are pleased to know, however, that you are coming out all right and that the primary was held and was satisfactory to you. May all good things come to you during the year that is before us.

With best wishes, we are,

Yours truly,
Barnhart Bros. & Spindler.

Hopkinsville, Ky., April 11, 1905.
Mr. Jas. E. Chittenden.

Marion, Ky.

Dear Mr. Chittenden: Two copies of your paper came to me and in it I read a full account of the big fire and of your loss, but as you so aptly illustrate it in your last issue, you are bravely surmounting the ruins with your paper under your arm. Of course the most sensible thing to do but sometimes the hardest. At any rate let me extend to you my heart felt sympathy for your recent loss, and let us hope that all will turn out for the best.

Should you ever return to Hopkinsville you will find your old friends here as of old and ready to welcome you and wish you well.

Thank you very much for the papers.

With kindest regards I am as ever
Your friend,

FLORA RYAN

Hopkinsville, Ky., April 6, 1905.
Mr. J. E. Chittenden.

Marion, Ky.

Dear friend:—

I received this morning a copy of The Record, for which I wish to thank you. I was afraid that since the great fire at Marion your paper was a thing of the past, but Phoenix-like it surmounts all difficulties and rises superior to all obstacles. I trust that this will be a blessing in disguise, as it proved to be to Hopkinsville in 1881—new buildings taking the place of old ones and the town growing up rapidly.

Now will be a good time for you to come back to old Hopkinsville, where you have so many friends who would give you a hearty welcome.

With kindest regards I beg to remain Yours very truly,

MRS. J. M. CAMPBELL

Educator Resigns.

LEXINGTON, Ky., April 22.—Prof. Runcie N. Roark, dean of the Normal Department of the Kentucky State College, and one of the most widely known educators in the State, has resigned, the resignation to take effect in June, at the end of the present academic year. While refusing to make known his reasons for resigning in a statement, the public can draw its own conclusions. For several years there has existed a rivalry between the academic and normal departments, the former, under charge of Prof. W. K. Patterson, a brother of the president of the college. It is openly charged that the normal department has been discriminated against in favor of academic department.

The bridge is approached at both ends by concrete arches. There are five 65 ft. arches in the east approach and six 65 ft. arches and one 100 ft. arch in the west approach. The concrete in the approaches is of Portland cement. Its total amount is estimated at 36,000 cubic yards.

JOSEPH JEFFERSON, DEAN OF AMERICAN DRAMA, IS DEAD.

JOSEPH JEFFERSON

WEST PALM BEACH, Fla., April 24.—Joseph Jefferson died at his home at Palm Beach at 6:15 o'clock last evening. The end came after a day of unconsciousness and after a heroic struggle of days which had exhausted his vitality. At his deathbed wife, his sons, Charles B. and Frank Jefferson, his nurse, Mrs. Margaret Bingham, Dr. R. R. Parker and his faithful old servant, Carl Kettler. Joseph Jefferson was born at Philadelphia, Feb. 20, 1829. He was the fourth of his family and the third of his name on the stage. He made his first appearance as a child in "Piggy Rat" at the age of three years. Until 1856 he played minor parts and managed several Southern theaters. In 1858 he became prominent as Ann French in "Our American Cousin." Later he became a star and his "Mr. Douglas," "Hub-Aces" and "The Philadelphian" were notable successes. Though he was principally famous for his performances at R. F. Winkles, he published his autograph in 1880. He was a parent of much talent. He leaves seven children. He settled from the stage only a few months ago.

BRIDGE COMPLETED

The road bed on both approaches is double track, ballasted and 56 ft. rails used.

The total length of the bridge proper, including the concrete approaches, is 3,807 feet. The total length of the entire construction, including earth approaches, is 4.7 miles.

The completion of this bridge does away with the Cotton Belt's car ferry transfer at Thebes, and will enable passenger trains to make an hour quicker time from St. Louis to Texas. It will shorten freight schedules five hours.

The Cotton Belt has spent \$150,000 in terminal improvements at Illinois, just west of the bridge on the Missouri side, and owns all terminal facilities and track connections on that side of the river.

This bridge puts the Cotton Belt at the front among the important lines from St. Louis to the Southwest. The main line will at once inaugurate a new fast freight service between Texas, Arkansas, Louisiana and St. Louis. Through freight from St. Louis to Texas will be delivered in much shorter time than has ever before been attempted.

In anticipation of heavy traffic, the company is preparing to double track the line from the river to a point 60 miles west. The fact that the Cotton Belt already has the lowest grade line to the Southwest and has been newly laid with 75 and 85 pound steel rails will make this road a vital competitor for Southwestern business, and is certain to make a strong showing in future earnings.

It is a double track structure and its location is a particularly fortunate one, owing to the high banks on each side of the river which obviate the necessity of the usual long approaches.

The bridge consists of a continuous steel structure of five spans. The central, or channel span is 671 feet long, the two spans on either side of the channel span are 621 ft. 2 in. long, the two end spans are 618 ft. 6 in. long, the two fixed spans on either side of the channel span are 75 feet high between centers of chords, the suspended spans are 55 feet high between chords at the center, the distance center to center of trusses is 32 feet. There are approximately 11,000 tons of steel in the structure.

The six main piers supporting the steel superstructure are founded on bed rock. The total height of the structure from the bottom of the lowest foundation to the top of the highest point of the superstructure is 233 feet.

The bridge is approached at both ends by concrete arches. There are five 65 ft. arches in the east approach and six 65 ft. arches and one 100 ft. arch in the west approach. The concrete in the approaches is of Portland cement. Its total amount is estimated at 36,000 cubic yards.

Saved by Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her, so she took Dr. King's New Life Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and la grippe. At R. F. Haynes' drug store, price 50c and \$1.00, guaranteed. Trial bottle free.

LOLA

Rev. E. M. Eaton preached here last Sunday.

Dr. W. C. Davis and wife went to Marion last Sunday.

Married, at the residence of the bride's mother, Mrs. G. W. Watson, near Carrollton, last Wednesday eve at 7:30 o'clock, Miss Fannie Watson to Horace G. Fisher, of this place, Eng. J. D. Foley officiating.

Mr. and Mrs. P. H. Stoyers went to Marion one day last week.

The musical at Van Fishers was largely attended last Saturday night.

We have a Sunday school every Sunday at 2 o'clock. Everybody is invited to attend.

W. C. Poorman and J. C. Gossage are prospecting for coal on S. H. Gossage's farm near here. The indications are very flattering.

G. Garth Hearne has a force of hands at work on the farm of William H. Hadel, col. where he bought the coal rights. He has erected pumping machinery to dispose of the water that is coming into the shaft.

Mr. Harry Crawford and little daughter, Denver, visited his father, J. F. Crawford, near Hardey, last Saturday night.

W. T. Flanary is still confined to his bed.

Mr. Minnie Marley visited Mr. and Mrs. J. J. Myrick last Saturday night.

Mrs. U. H. Trumble arrived home last Saturday after being absent about four months visiting her brothers and sisters in Southwest Missouri. Her health is much improved.

Joe Ratcliffe has quit the coal mines and is now at home.

A. S. Johnson drove a nice lot of hogs to Carrollton last Monday.

Easter has passed, and we predict warmer weather, and think the farmer can begin to seed his ground now.

W. F. Paris wants the people to remember that he is still manufacturing a high grade door that sells at \$2.50 per cwt. iron at 80c per cwt. metal 80c bushel. Thursdays and Fridays are his grinding days.

The merchants are having a leisure time now as the farmers are busy plowing their crops.

Playing cards is in the order of the day.

SURVEYING PART

PUT IN FIELD BY T. C. KENTUCKY

Already at Work On Looking to Connection With 'Frisco.

According to adv. in Knottsville, Ky., the Central railroad is already in preliminary arrangements to extend to Evansville and a surveying party has begun work there on the line.

No positive information is learned on the subject, but it is said that the Central will look for a connection with the Illinois lines of the Frisco and that the work will be by the end of this year.

The bridges to be built on the Ohio will be necessary connections for months to come as the bridges can be built more frequently.

Nashville will have a line to Chicago and the St. Louis line will be more frequently used.

No official announcement is made of the company's plans for the connecting lines, but it is said that the Illinois line will be known as the Illinois Central system, a name of the river with present name.

It is said that a line will follow the surveying party to Kentucky and that the line will begin to follow the river.

Christopher, Ill., April 17, 1905.

Mr. J. E. Chittenden.

Marion, Ky.

Dear Sir:

As you and some of my friends requested me to write about this part of the country, I take this mode of doing so.

This is a very fine country. The land is very rich as farming land, and this county (Franklin) is just now being developed for coal. They have an eight and ten foot vein of coal which is very fine. Nearly all the land is being optioned, and several parties have already sunk shafts to the coal at a depth of from five to six hundred feet. This is the place for the wage earner, for wages are good.

There was an explosion at one of the mines about two weeks ago which killed about forty miners.

There are to be one or two more railroads built through here some time in the near future.

If this does not find its way to the waste basket I may write again. Hoping The Record success, I will close.

We Risk It.

Druggists Who Sell Dr. Miles' Nervine Agree, If It Fails, to Refund Cost.

Of course we reimburse the drug cost.

You know him and trust him.

Dr. Miles' Nervine is medicine for your nerves.

It cures disease of the internal organs by giving tone to the nerves which make these organs work.

It is a novel theory—not of anatomy, but of treatment, first discovered by Dr. Miles, and since made use of by many wide-awake physicians, who appreciate its value in treating the sick.

If you are sick we offer you a way to be made well—Dr. Miles' Nervine.

This medicine is a scientific cure for nerve disorders, such as Neuralgia, Headache, Loss of Memory, Sleeplessness, Spasms, Blackache, St. Vitus' Dance, Epilepsy or Fits, Nervous Prostration, etc.

By toning up the nerve, Dr. Miles' Restorative Nervine will also cure those diseases of the internal organs due to a disordered nervous system.

GREAT SENSATION

CAUSED BY BANK PRESIDENT'S DEFALCATION.

MILWAUKEE, April 21.—President Bigelow, of the First National Bank, is a defaulter, and the institution has closed doors.

It is alleged that he has misappropriated \$1,500,000 of the bank's funds.

The directors state that they will make the loss good and that none of the depositors will lose any money. No arrest has been made yet.

The wildest excitement prevails in the city over the news of the defalcation, and hundreds of depositors surround the bank building.

The institution has been looked on as one of the strongest in Wisconsin, and president as one of the state's ablest and most successful bankers.

Wanted.

MEN AND WOMEN in this county and adjoining territories to represent and advertise an old established house of solid financial standing. Salary to men \$21 per week, to women \$12 to \$18 weekly, with expenses advanced each Monday by check direct from headquarters. Horse and buggy furnished when necessary; position permanent. Address Blew Iron, & Co., Dept. B, Monon Bldg., Chicago, Ill. 4151.

COMMISSIONER'S SALE.

CRITTENDEN CIRCUIT COURT, KY., Geo. W. Tracy, etc. Till | Notices Against A. S. Grace, etc., D. T. | In Equity

By virtue of a judgment and order of sale of the Crittenden circuit court, rendered at the March term thereof, 1905, in the above cause, the undersigned will, on Monday, the 8th day of May, 1905, at one o'clock p.m. or thereabout, (being county court day,) proceed to offer for sale, at public auction, to the highest bidder, on a credit of six months, at the courthouse door in the town of Marion, Ky., the property mentioned in the judgment, to-wit:

One small tract of land lying near Marion on the Marion and Princeton road and known as the Sam Grace homestead, and bounded as follows, viz.: Bounded on the East, North and West by the lands of Joseph McClintock, on the South by the old Princeton road leading from the brick church near Marion to Princeton by way of Isaac Wheeler's old place, containing seven acres more or less, or sufficient thereof to produce the sum of money so ordered to be made. The purchaser will be required to give bond with approved security, for the payment of the purchase money, to have the force and effect of a judgment bearing legal interest from the day of sale, according to law. Bidders will be prepared to comply promptly with these terms. Bond payable to Commissioner, J. H. Rutherford.

It looks as though the big fire failed to put The Record out of business.

not able to bury themselves. I know wages are good, but you have to buy every thing you eat, even to the water you drink. But I guess I had better not write too much, for Mr. Hill gets this paper as quick as I do and he is my door neighbor, if I should say people neighbor here; but if he kicks about this I will write something about the country next time. A Kentuckian don't have to be knocked down to take a hint anyway. We get the Record regularly and read and re-read it and we like it on account of what it stands for. So may it live long and prosper is my wish. Your friend,

ANNOUNCEMENTS.

FOR REPRESENTATIVE.

COCHRAN—We are authorized to announce Thomas H. Cochran a candidate to represent the district composed of Crittenden and Livingston counties in the Kentucky legislature; subject to the action of the Democratic party.

Forest fires are raging in Minnesota and Wisconsin and threaten much damage.

In a speech at Calabozo, President Castro, of Venezuela, intimated that if war against his republic being planned he is ready for it.

Government Ownership

Our Friend, "Old Guard," Has Something to Say on It.

Editor of The Record:—As you know, Judge Dunne, of Chicago, nominally a Democrat, has been elected mayor of that city and there is general rejoicing throughout the entire country. This rejoicing is not because his opponent, Judge John M. Harlan, a Republican, was in anywise objectionable as a man; for no gentleman is held in higher esteem by all citizens of Chicago. It was because Judge Dunne was nominated by an element which stood uncompromisingly for municipal ownership of all public utilities, and the fight was made on this issue solely.

We will now see carried into effect the public ownership and operation of street car lines in a great metropolitan city—the second city in the United States.

There have been forming for a few years past little currents here and there in favor of the public ownership of the various utilities of the country, and these currents coming together have formed a strong stream that is daily gaining in strength and volume. Every day the trend of public opinion is more and more in that direction.

These things are coming. It is a part of the manifest destiny of this great country that government, both National and State, shall own these public necessities. The arrogance and domineering insolence of incorporated and aggregated wealth has become such a menace to the country's safety that the Government, in sheer self defense, will be forced to do this, and when it is done, the wisdom of the act, the blessing with which it will be fraught will be so patent that everyone will wonder it

had not been done long before.

No one denies the authority of a city government to fix the rate of telephone tolls, street car fares, and electric and gas charges for light, power and fuel. Then if a city is so empowered, why not own such utilities and profit by the use thereof instead of giving or selling the franchises to corporations—nine tenths of the owners of which are absentees, residents of other States and yearly take their profits to other fields for investment. The profits from the operation of street railways, telephones, electric and gas companies of a great city will very nearly, if not entirely, defray its expenses. They will come so near doing so that taxes will be only nominal.

Some people urge in opposition that such ownership would open such fields for graft and corruption the whole country would soon be in the hands of thieves entirely. That view is too pessimistic to even be considered. The United States Government owns and operates the postal system. Is it a seething mass of graft and corruption? Would the addition of telegraph and telephone lines make it a field for fraud?

The State of Georgia has owned and operated a railroad for years—one of the principal roads in the State—which has been a paying investment from its inauguration to date. Has anyone ever heard of any corruption or graft in connection with that road?

The Government of New Zealand, one of the most important of the British colonies, owns all railroads, telegraph and telephone lines, and other utilities of this character. Everything works well there, and there is no dishonesty anywhere. Railroad freight and passenger rates and telegraph and telephone tolls are all cheaper there than elsewhere on the globe.

Government ownership will be a living issue in the next presidential campaign, and while it may not win then, it has come to stay.

BOATS OF HOLLAND

MAY BE FITTED SOON AGAINST SCHWAB'S.

American Submarine Vessels and Cruisers in Japan-Russia War.

NEW YORK, April 27.—John Holland, the submarine inventor, is said to have been notified by the Japanese government that the preliminary tests of submarines built secretly by him and shipped to Japan have

proved successful. Further tests are to be made to supervise which Mr. Holland has been invited to go to Japan.

An American, reputed to be an American, is in charge of the boats. He is training the Japanese officers to handle them.

As Mr. Holland is personally building boats for the Japanese government, while the Schwab-Nixon syndicate is building boats for Russia, it results that Holland is to wage war on the boats that are being built by the men with whom he was formerly associated.

THE VITAL NECESSITY

There is no other one thing with which I have so much trouble as the lack of persistence among advertisers. They lack the nerve to fight long and hard.

While they will expend a good deal of cash and energy in making a single plunge, they will grow tired if called upon to expend the same amount through a campaign of six months.

The road to success is an uphill road all the way. Do not try to sprint.

For a little way it goes easy, and you get over the ground fast, but the goal seems all the farther away when the nervous energy in that sport is spent. There are but 40 per cent of advertisers who make their advertising pay.

The road to success is an uphill road all the way. Do not try to sprint.

They jumped into advertising without preparation in the way of the money to meet the expense or the experience to keep from wasting it. They failed to consider that the creation of trade through advertising is a long process. Inland Printer.

U.S. SENATOR PLATT

WASHINGTON, Conn., April 22.—United States Senator Treville Hitchcock Platt, of Connecticut, died at his summer home in this, his native town, at 8:53 last night from pneumonia.

By both temperament and feeling Senator Platt was peculiarly the representative of New England ideas and of the old-fashioned Puritan integrity and conscience. Throughout his whole life he kept himself in the most sympathetic touch with New England institutions of every kind.

Senator Platt was first elected to the Senate in 1870 to succeed Senator Barnum, a Democrat. His last re-election was in 1882.

As regards his political and public personality, Senator Platt was man to the last degree plain-spoken. While not a brilliant speaker, he was clear and forcible one on the platform.

SEWING BEES AT THE CHINESE COURT.

Empress Has an American Machine Putting Ladies to Work.

PARIS, April 26.—A French collector who, returning from Manchuria, visited Pekin where he was presented at the Imperial court, says the dowager empress of China has been presented with an American sewing machine. She is so delighted with it

that she has decided to order one for every lady at the court, and intends to have regular sewing bees in the palace, to which daughters of all the highest mandarins are to be invited and try their skill on the wonderful machines.

The empress is at present even

more interested in sewing machines than in the magnificent mausoleum which she is having built for herself and on which she has spent nearly \$50,000.

She told the officer that she has no intention of dying for some time yet and that she feels as well as ever. She will continue to be the actual ruler of China until the war between Japan and Russia is over, but she will then retire.

POPULISM IN CHICAGO.

Judge Dunne's Triumph the Logical Outcome of Agg

Begun 15 Years Ago By the People's Party.

Every old gray-haired Populist in the United States is in favor of the election of Judge Edward F. Dunne as mayor of Chicago on the Municipal Ownership platform, because he sees, after years of the triumph of a principal which has never been clearly enunciated, the national platform of any except the People's party. After ten years the abuse and vituperation of the old party press, those who reform view with satisfaction the rapid growth of sentiment in favor of public ownership of public utilities.

Not only Judge Dunne is a Democrat—but his party is in favor of public ownership in its national platform. Not only the Populists are in favor of public ownership in their platform—but the Socialists seem the victory in the election of Judge Dunne, in "State Capitalism," as reactionary and dangerous. The People's party alone has steadfastly upheld the principle which enabled the people of every city in the United States to elect Judge Dunne by a plurality of 110,000.

That the Chicago election this spring was a distinct victory for the Populists—and nothing else—is shown conclusively by Hon. T. C. Parsons in a speech editorial which will appear in the May number of "People's Magazine." Out April 25th. Price ten cents at all newsagents by mail, \$1 a year. Address:

REGULAR EPIDEMIC

OF HORSE STEALING IN THIS REGION.

Police Are Amazed at the Number of Animals Stolen.

The horse-stealing mania which seems to be sweeping over the country has struck Henderson and Hopkins counties. Within the last week more horses have been stolen in these two counties than there had been in nearly a year previous, says the Henderson Gleaner.

The members of the local police force declare that the records will not show as many thefts of horses in a month as have been stolen in the last five days. They are appalled at the number of thefts and the success the thieves have in getting away from officers.

Almost daily reports come from other counties in the state and from adjoining counties telling of horses being stolen. The police daily receive circulars telling them about horse thefts and giving description of the property. Such reports have been coming the police regularly for several weeks past but the wave had not struck this section until last week.

It seems strange that horse thieves can get away so easily. The state offers a standing reward of \$50 to every person who catches a horse thief and the officers never fail to work hard on such cases. Again it would seem to be a hard job to dispose of a horse without arousing suspicion in making a cheap sale and when the police are on the watch for such deals.

We grow to perfection every variety of fruit and vegetable that our Eastern friends pretend to raise. The Northern Pacific railroad runs through this valley, and you never see an empty car setting on a side track over its limited time to be hauled, and we are shipping every month in the year.

I will say to my many friends in old Crittenden that if you want to seek a home in the Northwest, you can't beat Yakima Valley.

CONGRESSMAN IS SHOT TO DEATH.

HON. JOHN M. PINCKNEY OF TEXAS

IS KILLED IN A FIGHT.

Troops are Taken to Scene To Prevent Further Trouble.

HEMSTEAD, Tex., April 25.—At a mass meeting here last night, called for the purpose of petitioning the governor to send rangers here to enforce the local option law, J. N. Brown, leading lawyer and staunch Prohibitionist, began shooting, which became general instant. Three men were killed, one man was fatally injured and two others seriously wounded.

The dead—J. N. Brown, Congressman John M. Pinckney, Tom Pinckney.

John Mills, a leading Prohibitionist, it is feared cannot survive. Doc Tompkins, private secretary of Congressman Pinckney, and Ruling Brown, son of J. N. Brown, are badly wounded, but just how seriously cannot now be determined. There are many armed men on the streets, but it is not believed there will be any more trouble.

The governor was notified and sent rangers here. A special train was run from Houston with surgeons to attend the wounded.

There has been bitter feeling for several years over the prohibition question and the recent election, when the "antis" failed to gain the victory they had expected, added to this. The whole county has been divided into factions as a result.

Recently Tucker Pinckney, a brother of John M. Pinckney, was

shot to death by negroes.
